Pre-requisite course(s) - refers to a course or set of courses which should be enrolled in and passed accordingly before the specified course can be enrolled in.

Co-requisite course(s) - refers to a course or set of courses which may be enrolled in earlier or the latest taken simultaneously with specific course. However the respective incurred grade will not affect the validity of the grade of the other specified course.

Qualified Electives or Cognates are any academic courses offered in allied or relevant fields in the institution chosen by a student and approved by the program adviser.

Together with the applied math electives, these courses serve to incorporate a research focus or specialization to the student's program. In combination with or in lieu of qualified electives or cognates, the student with approval of the program adviser may also choose from the list of applied math electives to satisfy this requirement.

Free Electives are academic courses in any discipline offered in the institution freely chosen by a student.
